## Foreword from Rajiv Datta, CEO

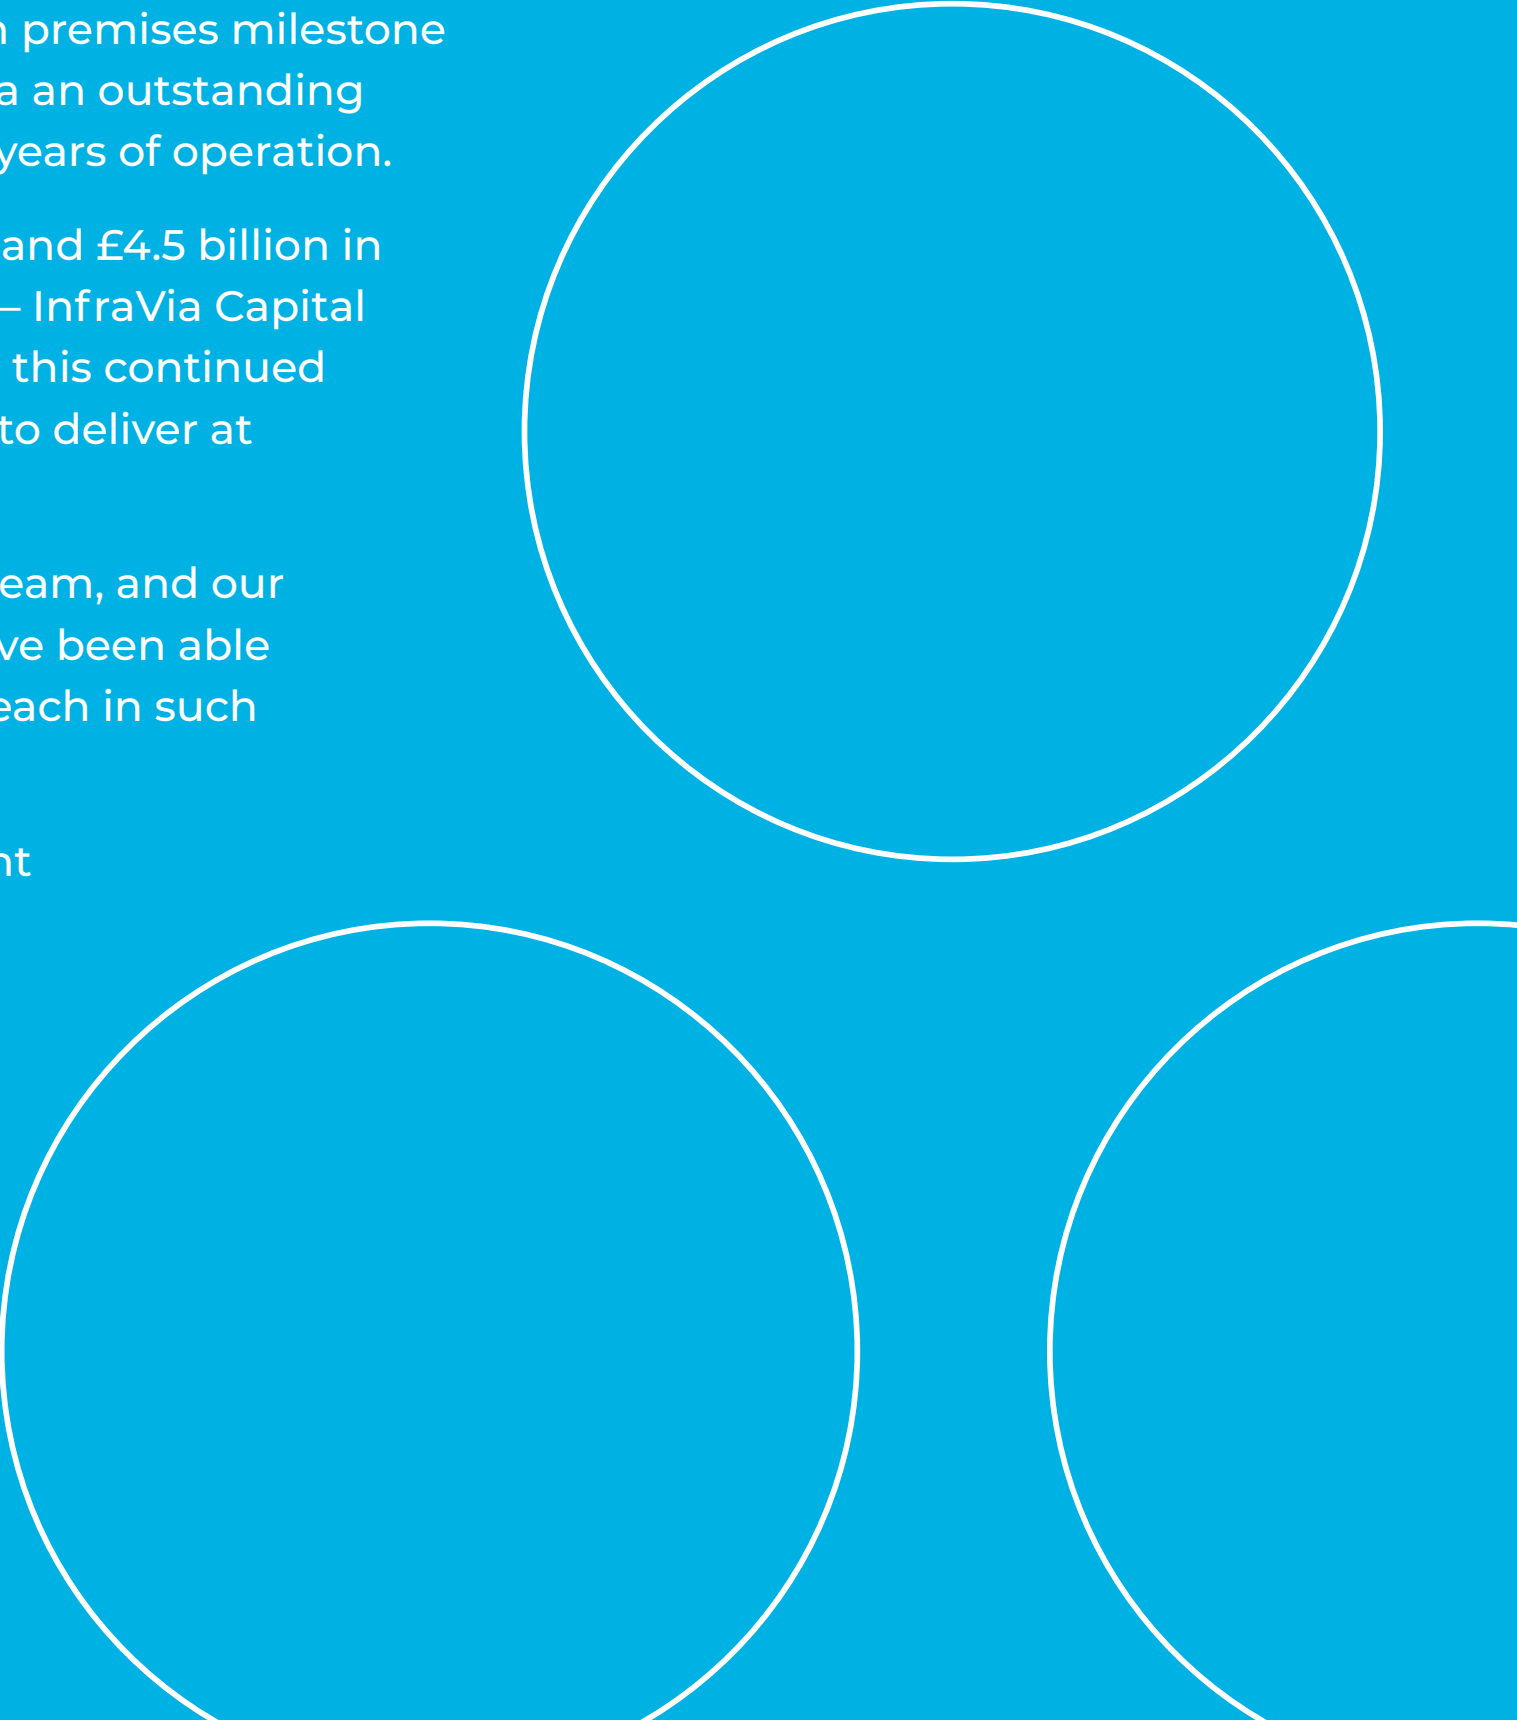

Welcome to our latest quarterly network rollout report.

Reaching the 2 million premises milestone at the end of 2024 was a an outstanding achievement, in just two years of operation.

Supported by a clear strategy and £4.5 billion in funding from world-class investors – InfraVia Capital Partners, Liberty Global, and Telefónica, this continued progress once again reflects our ability to deliver at scale and pace.

It is testament to the hard work of our team, and our partners at Virgin Media O2, that we have been able to accelerate activity and achieve this reach in such a short period of time.

We remain steadfast in our commitment to delivering the high-quality digital infrastructure that has the power to create lasting value in the communities we serve.

nexfibre is a next generation fibre network operator, formed in December 2022. We are on a mission to deliver our network to more premises, using the latest XGS-PON architecture, capable of symmetrical speeds of up to 10 Gbps.
